Now, we find that we must in all probability, add one, and no doubt innumerable other similar bodies, to the stellar spaces. It opens a new view of creation."

THE OPENING OF THE SCHOOLS .- The coming on of the season for the resumption of school duties has been quite perceptable. during the past two days, in the number of masters and misses with books and satchels on their way to resume their studies at some of the many excellent institutions with which our city abounds. No city of the size of Alexandria on the continent can boast a greater number of institutions of learning: or better ones. The remarkable increase in this respect since 1850, is an incident in the history of the town. The female seminaries in that time have risen from 3 to 10; the male academies doubled their number; the common schools increased from 15 to 20; and glowing promise to the future.

NARROW Escare. On Sunday evening as the boat which carries passengers from the terminus of the Alexandria railroad was passing through the locks at the Water Works' dam, a boy about fourteen years old attempted to jump on it. In doing so, he struck Boats John A. Reinhard and M. J. Hull, to himself against the footway across the docks, and was near being thrown over the side of the beat into the water. Had it not been for Capt. Glasgow, one of the conductors of the Alexandria cars, who caught him as he was falling from the boat, the lad would no doubt have found a watery grave. - Lyuchbury Republican.

THE LOUDOUN COUNTY AGRICULTURAL FAIR, commences at Leesburg, to-day, and the exhibition will doubtless be very attractive, and a large crowd is expected to be present .-Several of our citizens will have articles on exhibition. The facilities offered by the Alexandria, Loudoun and Hampshire Railroad enable our citizens to attend the Fair and return on the same day. The Fair closes on Friday. Governor Letcher will be present.

DETENTION.-The Lynchburg Republican of yesterday says: The Northern Mail failed to reach this city yesterday until 53 o'clock P. M. The detention was caused by the Orange and Alexandria train being thrown from the track on the Central Railroad beween Gordonsville and Charlottesville. No persons were hurt, and no damage was sustained by any of the cars."

EXECUTOR'S SALE OF VALUABLE LAND IN ALBEMARLE COUNTY.—I will offer for sale at public auction, on the premises, 'on Taesday, 11th of September, 1860, if fair, if not the next fair day, a Tract of Land, belonging to the estate of Dabney Minor, dec'd., of said County. and containing about 2000 ACRES. This large and valuable estate is situated on My Chunk Creek; and the Flatlands or Creek Low-grounds constitute a large part of the cleared land, and only need proper drainage to make them highly productive; the balance of the cleared land is either table land or beautifully undulating hills, and is of good quality, and for the most part in good condition for profitable cultivation. There is a vein of Limestone running through the farm (which has been opened many years ago,) and the lands being admirably adapted to the use of Lime, (as may be seen on the adjoining farms,) renders this property essentially and permanently valuable in the eyes of the enlightened agriculturist; and this, with its remarkable proclivity to produce grass, would make it, under good management, unsurpassed in the county, as a grazing, or Meadow Farm: at the same time, the land is well suited to the growth of Corn, Wheat, Oats and Tobacco, and has an unlimited supply, of the best Plant land. A large portion of this farm is in original forest, well timbered with Pine, Oak and Chestnut. This timber is all marketable at remunerative, prices, either for Railroad Sills, for fuel at Charlottesville and the University of Va., or for the lumber market at Richmond, and elsewhere.-The Farm is 9 or 10 miles from Charlottesville and the University, and the Central Railroad passes through it, and the improved Horse-Boat Nav igation on the Rivanna River is only three or four miles distant, and the University has been sup-

versity. The Buildings are comfortable and good, and in good repair; the DWELLING HOUSE is beautifully situated and commands an extensive view of the South West Mountains, from which it is distant two or three miles; and the neighborhood affords as good society as can be found anywhere, and has convenient Churches of all denominations. The Farm is susceptible of division and if desirable may be divided to suit purchasers Permission will be given to sow a crop of Wheat in the Fall, if desired, and possession given the 1st day of January, 1861. PAYMENTS .- One third in Cash the 1st Janua-

ry, 1861; the balance in equal instalments in one of Dabney Minor, deed.
